REPLY COMMENTS

On March 28, 2005, E-String Wireless, LTD. filed a counterproposal in this proceeding proposing to relocate the reference coordinates of the proposed new allocation for Mt. Enterprise, Texas, Channel 231A, in order to accommodate a change in transmitter site for its new Lufkin station. As stated by E-String Wireless, this change in transmitter site is necessary to optimize coverage of the Lufkin-Nacogdoches market. As further stated by E-String Wireless, the proposed new reference coordinates for Channel 231A at Mt. Enterprise¹ would be fully spaced to all other stations and allotments and that city-grade service would be provided to the community of Mr. Enterprise.

¹ Proposed new reference coordinates for Channel 231A at Mr. Enterprise, Texas are: 32-01-48/ 94-39-39.

Given the public interest benefit of improved coverage to the Lufkin-Nacogdoches market for E-String Wireless' new Lufkin station without denying Mt. Enterprise its first local FM service, I support the counterproposal as proposed by E-String Wireless, LTD.

Should the Commission grant Channel 231A at the reference coordinates proposed by E-String Wireless, Petitioner will apply for Channel 231A at Mt. Enterprise, Texas and after it is authorized, will promptly construct the new facility.

The factual information provided in these Reply Comments is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
